

3D HD Video Converter Box V3D

Due to lack of available 3D contents, 3D ready TV or display devices will not be viewed in 3D mode all the time. V3D will offer real-time 2D to 3D conversion for all 2D content to combat the shortage of 3D contents. V3D provides 2D to 3D converting functions, allowing you to watch you 2D content in 3D effect!. V3D is also designed to work with 2D HDTV, 3D HDTV, and 3D DLP projector, on 2D or 3D. You can convert 2D videos in 3D effect in real time on 3D HDTV simply by V3D. 3D ready DLP projector is becoming popular for home a/v Entertainment. However, most people can enjoy 3D program on 3D ready DLP projector, easily due to 3D format supporting problem. With V3D, users can easily watch their 3D content on 3D ready DLP Projector.
