MXQ Pro 4k TV BOX ANDROID

The MXQ Pro 4k TV Box / X96 Mini has it all: 4k Ultra HD image, Quad-core processor. Connect the box to your TV using HDMI and navigate through the easy Android menu to receive TV. With the Kodi App you can watch films, series and sporting events.

Watch movies and series, through an app like Netflix, but on the MXQ Pro box and X96 Mini you can also play games or use the Android Play Store to install other apps like Kodi, Youtube, Spotify, Facebook and Instagram. The images are razor sharp through the Ultra HD support, while navigating and gaming are extra fast through the Amlogic S905 A53 Quad-core processor. Internet can be used with WiFi, Ethernet cable or a dongle. Dolby and DTS are supported and the TV Box uses HDMI 2.0 so you can watch almost all movies and series with beautiful picture and great sound!
